

INSTRUCTIONS AND SUGGESTIONS FOR USE OF CONSTRUCTIVE NOTICE

This IS DESIGNED FOR USE IN A CIVIL ACTION IN FEDERAL
court by A PRIVATE INDIVIDUAL

This is not copyrighted and it is encouraged to share with anyone.

The notice is the first step in the DUE PROCESS use of LAW. If we want Due PROCESS we must use it.

First thing is naming the person/s to send it to I would suggest the Governor of the State, DO NOT use his/her title just the name. The reason is that he/she started this unlawful use of power and all the people that follow their Edicts are noticed in the declaration. The declaration and law sections are to be used as printed in the sample. If you want to notice others, there are suggestions on the sample sheet, DO NOT use their title/job description, just their name. You edit this letter to suit who you want to serve.

The notice MUST be NOTERIZED. ALL those named will have to be served in person (preferred) or by certified mail with return service. You need only notarize one document if all those you are serving is on the letter. The notary will use a separate page. Copy each page including the notary page. Also include a TRUE COPY page in each mailing. Also keep a copy of this mailing and the certified information etc.

The pandemic has damaged most people. If you have been directly confronted by some person or department such as the health department then you would want to include them. You should assemble a list of people and damages you and/or your business suffered as a direct result of this unlawful action by them. You must concentrate on your case/situation and not be influenced by other people's situation or what happened to them. If you want to use a lawyer/attorney in this notice, their Name cannot be on the notice. Again I repeat this is NOT the lawsuit, only the first step. Our para legal will be back to start on the generic complaint. This will fit the time line of the Constructive notice.

If you get ANY response from those named in the notice from any government lawyer/Official, DO NOT respond to them, contact us first, The reason is that you do not notice ANYONE in their OFFICIAL capacity is to keep them from using government funds to defend them, which is a felony, and will defeat the use of this approach. Also strongly suggest you understand the quoted sections of Federal law, this basically is a RICO action.
